

New!

NEW DISPENSING OPTIONS FROM CORE PRODUCTS CO., INC.

Core's Proportioning Hand Gun

- Simply attach the gun to the chemical bottle.
- Connect the gun to the supply hose with the water valve in the 'off' position.
- Select the desired dilution with the product selector valve that is just above the bottle and then you're ready to start working!
- Our simple, inexpensive alternative for product/dilution control!

Core Extreme Proportioning System (CEPS)

The best choice for any janitor's closet where a secure dispensing unit can ensure accurate dilutions for up to five ratios, the **CEPS unit**

- Saves time
- Saves money
- Saves product
- Saves space
- Safe, easy-to-use & secure
